**Terms and Conditions:**

This Report is issued solely for the benefit of the Client for use only for and limited to the specific jurisdiction or standards referenced in the Report. This Report may not be relied upon for any reason by any person or entity other than the Client including, but not necessarily limited to, the manufacturer or developer of the items, a non-GLI Laboratory, or a Regulator not named in the Report ("a Third Party").

Any report produced by GLI is proprietary to GLI and the Client, because it contains confidential information of commercial value, the exposure of which to third parties could adversely affect both GLI and the Client. Accordingly, such confidential information is supplied in confidence, on the strict condition that no part of it will be reprinted or reproduced or transmitted to any parties external to the original contract without the prior written approval of the Parties. In particular, it will not be exposed to any person or organization which may be in competition with any of the Parties without the prior written approval of that Party. The testing performed by GLI is proprietary to GLI and/or various regulators. No third party may use, rely or refer to a GLI evaluation report, test report, certification document or test results without written permission of GLI and the respective regulator. Notwithstanding the above, the Parties may disclose confidential information if required to do so by regulatory agencies, pursuant to the laws and regulations of an applicable jurisdiction or by an order of a properly designated Court of Law in a relevant jurisdiction. However, in either case the Parties agree to immediately notify the other party of such a request.

Notwithstanding the above, any regulator may reprint, reproduce and transmit any document or information to any party that the regulator, in their sole discretion, deems appropriate.

The certification established by this Report applies exclusively to tests conducted using current and retrospective methods developed by **Gaming Laboratories International, LLC** (GLI) on the specific items submitted by the Manufacturer. It is the responsibility of the manufacturer and/or developer of the items submitted to apply for, obtain and maintain all necessary gaming licensure in each jurisdiction in which they do business, including state and tribal jurisdictions, where applicable. The Electrostatic Discharge Testing performed by GLI is intended only to simulate techniques observed in the field being used to attempt to disrupt the integrity of Electronic Gaming Devices. During the course of testing, GLI checks for marks, symbols or documents indicating that a device has undergone product safety or RoHS compliance testing, if required. GLI also performs a cursory review of information accompanying the items submitted, where possible and when provided, for evidence that the items have undergone compliance testing for Electromagnetic Interference (EMI), Radio Frequency Interference (RFI), Magnetic Interference, Liquid Spills, Power Fluctuations, Electrostatic Immunity, Electromagnetic Compatibility and Environmental conditions. Compliance with any such regulations related to the aforementioned testing is the sole responsibility of the manufacturer and/or developer of the items submitted; GLI accepts no responsibility, makes no representations and disclaims any liability with respect to all such non-gaming testing. The test methods used, excluded tests and actual data showing the test results, are available to the Recipient upon written request.

All items, which are the subject of this Report, are considered certified as of the date shown in the "Date of Report:" section on the first page of the original GLI issued Report. All of the items are certified for use until such time notification is sent indicating that an item is no longer permitted to be used within the jurisdiction specified. Additional information regarding the validity of this certification can also be obtained via GLIAccess and/or the Evaluation and Certification Guide, which is available on the [gaminglabs.com](http://gaminglabs.com) website. Use of the Certified Mark represents the users agreement to permit, allow and accommodate authorized representatives of GLI to perform a surveillance audit of the use of the Mark and to permit an authorized representative of the American Association of Laboratory Accreditation (A2LA) to perform a surveillance audit, at their discretion and at their expense, to confirm that the use of the Mark in no way implies that A2LA endorses or certifies any of the Marks, services or processes of the company, group or organization requesting the use of the GLI Certified Mark.
